## World Bank list of economies (June 2018)

This table classifies all World Bank member countries (189), and all other economies with populations of more than 30,000. For operational and analytical purposes, economies are divided among income groups according to 2017 gross national income (GNI) per capita, calculated using the World Bank Atlas method. The groups are: low income, \$995 or less; lower middle income, \$996–3,895; upper middle income, \$3,896–12,055; and high income, \$12,056 or more. The effective operational cutoff for IDA eligibility is \$1,145 or less.

Note: The term *country*, used interchangeably with *economy*, does not imply political independence but refers to any territory for which authorities report separate social or economic statistics. Income classifications set on 1 July 2018 remain in effect until 1 July 2019. Argentina, which was temporarily unclassified in July 2016 pending release of revised national accounts statistics, was classified as upper middle income for FY17 as of 29 September 2016 based on alternative conversion factors. Also effective 29 September 2016, Syrian Arab Republic is reclassified from IBRD lending category to IDA-only. On 29 March 2017, new country codes were introduced to align World Bank 3-letter codes with ISO 3-letter codes: Andorra (AND), Dem. Rep. Congo (COD), Isle of Man (IMN), Kosovo (XKX), Romania (ROU), Timor-Leste (TLS), and West Bank and Gaza (PSE).
